⚡ Alder: With Character

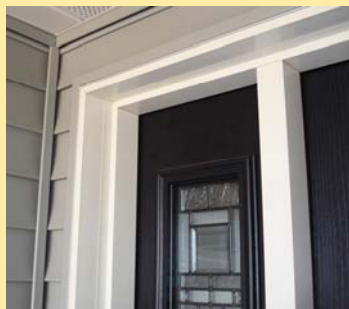

⚡ Multipoint handle set changes

### Multipoint Handle Set Changes

In an effort to hold costs and improve service and quality we will be changing suppliers for the multipoint trim sets.

During the change-over there may be variations in design between one finish and the next. Please be assured we will not mix handle designs within particular orders sharing the same finishes.

There are no changes in the styles or function of the handle only slight variations in appearance.
